### Textile Industry. Cotton Fabric Manufacturing Business. Business Opportunities in Clothing Industry

Textile is a flexible material formed using different processes, such as knitting, weaving, felting, or crocheting. These materials are used in the manufacturing of a wide range of conventional, as well as advanced finished goods, in kitchen, upholstery, bedding, transportation, construction, protective, handbags, medical, apparel, ties & clothing accessories.

India Textile Industry is one of the leading textile industries in the world. The Indian textiles industry, currently estimated at around US\$ 150 billion, is expected to reach US\$ 250 billion by 2019. India's textiles industry contributed seven per cent of the industry output (in value terms) of India in 2017-18. It contributed two per cent to the GDP of India and employs more than 45 million people in 2017-18. The sector contributed 15 per cent to the export earnings of India in 2017-18.

The Textile & garments industry in India is highly diversified with a wide range of segments ranging from products of traditional handloom, handicrafts, wool and silk products to the organized textile industry. The organized textile industry is characterized by the use of capital-intensive technology for mass production of textile products and includes spinning, weaving, processing, apparel, and garment.
