

Jute Bags, Jute Sacks, Gunny Bags Manufacturing Industry

Description:

Jute Bags, Jute Sacks, Gunny Bags Manufacturing Industry. Production of Jute Gunny Bags

Jute is 100% bio-degradable & recyclable and thus environment friendly. Jute is a natural fiber with golden & silky shine, and hence nicknamed as The Golden Fiber.

Jute Bags/Jute Sacks/Gunny Bags have been widely used for packaging of various commodities viz. Cereals, Cashew nuts, Ground nuts, Pea nuts, Cotton, Palm Kernels, Gum Arabic, Coffee beans, Cocoa beans, Rice, Paddy, Wheat, Maize, Copra, Lentils, Sugar, Cement, Fertilizers etc.

Jute Gunny Bags are extensively used for carrying bulk material such as pulses, grains, etc. from one place to another. Jute Gunny Bags are used to store large amounts of weights in them. These bags are suitable to be used in commercial and industrial places for transporting wheat, rice and other grains.
