

Production of Surgical Drapes.

Description:

Production of Surgical Drapes. Investment Opportunity in Hospital and Medical Products Business. Start Your Own Business in Healthcare Sector.

The surgical drapes are provided in various shapes sizes as per the treatment. The demand regarding surgical drapes is expanding because of rising number of medical procedures around the world, expanding center around growing awareness regarding cleanliness and infection control. Surgical drapes are employed to provide a physical barrier that protects the surgical field from contamination. An ether screen is the wall of drapes set up in order to provide a barrier between the anesthesia work area, at the head of the patient, and the surgical field. Surgical drapes are used in the OR to protect the patient, clinicians, and equipment. Drapes can be made of cloth or paper, and [reusable or disposable](#).
