

Kraft Paper Industry - Investment Project Opportunity for Startups and Entrepreneurs: Poised for Continuous and Rapid Growth in the Coming Years, Kraft Paper from Waste Carton Boxes, Sack Kraft Paper, Brown Craft (Kraft) Paper, Packaging Paper, Agro & Rec

Description:

Kraftpaper, Brown paper or wrapping paper is made from variety of raw materials, e.g. Bagasse, ground wood, straw, waste paper, in various combinations or alone, waste carton boxes etc. 'Kraft' mean strength and that is why its name. It is leading paper for wrapping heavy bundles. After corrugation it is used in many types of packing and it is an important packaging material.

Kraftpaper or Kraft is paper produced from chemical pulp produced in the kraft process. Kraft paper is ideal for a variety of packaging uses. The market is well established in North America and western countries, and it is expected to grow linearly over the forecast period. Growing economies such as China, India and Brazil are expected to emerge as most attractive geographical segments in the global Sack Kraft Paper Market.

Sack Kraft paper is distinguished by elevated elasticity and it can be easily customized depends on end-user requirement. Based on its elasticity, sack kraftpapers are commercially available in market which includes natural kraft paper, semi-extensible kraft paper, extensible kraft paper and coated kraft paper.
