

Most Profitable Manufacturing Business of Vitamin C from Sorbitol. Opportunities in Pharmaceutical Sector.

Description:

Opportunities in Pharmaceutical Sector.

Vitamin C (also known as ascorbic acid or ascorbate) is a water-soluble vitamin that can be found in a number of foods and is also used as a dietary supplement. Scurvy is a disease that can be prevented and treated with this supplement. Vitamin C is a necessary nutrient for tissue repair and the enzymatic synthesis of certain neurotransmitters. It is essential for immune system function and is needed for the function of several enzymes. It also has anti-oxidant properties. Vitamin C is well tolerated by the majority of people.
