A complete Business Plan for Setting up PlyBoard from Poplar & Eucalyptus Wooden Logs Manufacturing Business. Best Opportunities in Wood Industry

Plywood/Plyboard is a composite made up of thin layers of wood veneer called "plies" that are glued together and have their wood grain rotated up to 90 degrees from one another. It's an engineered wood that belongs to the same family as medium-density fiberboard (MDF) and particle board (chipboard). Plyboard is a composite material made up of resin and wood fiber sheets (cellulose cells are long, solid, and thin).
