

Business Ideas for Manufacturing of Adhesive (Fevicol Type). Profit-Making Business for Entrepreneurs and Startups.

Description:

Business Ideas for Manufacturing of Adhesive (Fevicol Type). Profit-Making Business for Entrepreneurs and Startups.

Adhesives are a broad term that refers to any substance that can be used to keep, fasten, or bind two or more materials or objects (i.e. substrates) together when placed between their surfaces. The adhesion (i.e., bond strength) created between substrates by the adhesive is largely determined by the adhesive's properties—specifically, its adhesion and cohesion.
