

Start a Business Unit of Viscose Filament Yarn. Opportunities in Textiles and Clothing Market.

Description:

Start a Business Unit of Viscose Filament Yarn. Opportunities in Textiles and Clothing Market.

Viscose is a fiber made from cellulose pulp that dissolves. Wood, cotton, and bamboo are among the raw materials used in its production. A natural yarn made from wood pulp, bamboo pulp, or cotton pulp is known as viscose filament yarn (VFY). It's a completely natural product. Rayon yarn or rayon filament yarn are other names for viscose filament yarn.
