

A2 Cow Milk Processing (Milk, Butter, Ghee & Paneer) Plant Business Plan. Soaring Demand for A2 Milk Products for Its High Nutritional Value.

Description:

A2 Cow Milk Processing (Milk, Butter, Ghee & Paneer) Plant Business Plan. Soaring Demand for A2 Milk Products for Its High Nutritional Value.

A2 milk is cow's milk that only includes the A2 beta-casein protein type. When we talk about A2 milk, we're talking about a specific sort of protein called beta casein, and nothing else (not fat or carbohydrates). A2 milk products are produced by dairy cows that solely generate the A2 beta casein protein, whereas today's cow's milk contains both A2 and A1 beta casein proteins.
