

# **Industrial Training Institute (I.T.I.), Industrial Training Centers Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Working Capital**

## **Description:**

Technical education at all levels in the country is witnessing a consistent growth pattern marked by the setting up of new Institutions and the improvement of the existing ones in tune with the quality assurance norms set by the accreditation agencies.

Industrial Training Institutes are post-secondary schools in India constituted under Directorate General of Employment & Training (DGET), Ministry of Skill Development and Entrepreneurship, Union Government to provide training in various trades.

The Indian economy is in the mode of globalization and liberalization and thus in need to develop skilled personnel in appropriate numbers with adequate skills, in consonance with the requirements of the ultimate users such as industries and service sectors. This is being done by Industrial Training Institutes.

The reason behind the huge demand for ITI students is that there is a great demand from industry for fitter, machinists, turners, and mechanics in diesel as well as in motor. All these courses are offered at ITI.
