

Highly Profitable Small and Medium Scale Projects for startup (NPCS Newsletter - Issue 04 2017)

Description:

The only way to determine if your ideas can potentially be profitable as a business and is worth pursuing further is to conduct feasibility studies. The purpose each entrepreneur should conduct a detailed feasibility assessment or study is to test if that business idea makes: Personal Sense, Business Sense, Market Sense, and Financial Sense. Without looking at the personal aspect, business concept, the market, and the financials, as well as analyzing the data and information, an entrepreneur is likely not to be successful or not as successful as s/he would like to be.

Projects covered in this issue:

- Aluminium Fluoride
- Floral Foam
- Spices and Masala Grinding, Blending and Packing
- Wire Nail
- Mini Aerodrome
- Cashew Nut Processing Unit
- Sterile Water for Injection with BFS Technology
- Precast RCC Sleeper for Railway Track
- Activated Carbon from Coconut Shell
- Hydroponic Green House Farming
