List of 30 Profitable Manufacturing and Processing Business Ideas for Entrepreneurs

Description:

Small and Medium Enterprises sector has emerged as a highly vibrant and dynamic sector of the Indian economy over the last five decades.

SMEs not only play crucial role in providing large employment opportunities at comparatively lower capital cost than large industries but also help in industrialization of rural & backward areas, thereby, reducing regional imbalances, assuring more equitable distribution of national income and wealth. SMEs are complementary to large industries as ancillary units and this sector contributes enormously to the socio-economic development of the country.

The Sector consisting of 36 million units, as of today, provides employment to over 80 million persons. The Sector through more than 6,000 products contributes about 8% to GDP besides 45% to the total manufacturing output and 40% to the exports from the country. The SME sector has the potential to spread industrial growth across the country and can be a major partner in the process of inclusive growth.
