

Environmentally friendly Products, Earth Friendly Products, Nature Friendly Products

Description:

Environmentally friendly Products, Earth Friendly Products, Nature Friendly Products, Green Products

(PET Preform from PET Resin, PET Bottles and Containers from PET Resin, Paper Cups, Bamboo Furniture, Disposable Plates from Banana Leaves, Biodegradable Plastic Products, Recycling of PET, Jute Garments, Coir Mattresses, PET Bottles, Natural Food Colours, Paper Plates, Toilet Paper Roll)

Eco-friendly products are products that do not harm the environment, whether in their production, use or disposal.

Some of these going green products when in use, help conserve energy, minimize carbon footprint or the emission of greenhouse gases, and does not lead to substantial toxicity or pollution to the environment.

Other green products are biodegradable, recyclable or compostable. Hence, they do not harm the environment or upset the ecological balance when they are disposed of.

There are also ecofriendly products that are made out of recycled materials. These recycle products help reduce the need for new raw materials and the amount of waste sent to landfills and incinerators (because waste can be diverted to making recycled products).
