A water park is an amusement park that features water play areas, such as swimming pools, water slides, splash pads, spray grounds (water playgrounds), lazy rivers, or other recreational bathing, swimming, and barefooting environments. Water parks in more current states of development may also be equipped with some type of artificial surfing or body boarding environment such as a wave pool or Flow Rider.

In ancient India, there was large use of water in the Tapovana, and different Ashrams in the forests. Elephanta caves in the Maharashtra can be considered as Water Park. Now the water park is the good idea of amusement. It is very good assets created by human being to enjoy the natural scenery artificially, if situated near by forest or hilly area.

Amusement water parks generally feature a few water rides, such as the log flume, bumper boats, and rowing boats. Such rides are usually gentler and shorter than roller coasters and many are suitable for all ages. Water rides are especially popular on hot days.
