

# **Surgical Cotton Manufacturing Business. Absorbent Cotton Roll Production Plant. Absorbent Cotton Wool Manufacturing Project. Medical Cotton.**

## **Description:**

Absorbent Cotton is also known as Surgical Cotton or Cotton Wool and mainly used for medical purposes in hospitals, nursing homes, dispensaries and at home (for first aid) etc. because of its property of high fluid absorbency, it is better known among masses as absorbent cotton. The raw cotton is processed by series of steps which render the cotton hydrophilic in character and free from external impurities needed to be fit for use in surgical dressings and personal hygiene. Apart from medical purposes absorbent cotton is also used for making conventional type of sanitary napkins or pads. Fairly good quality of absorbent cotton is also used for removing make-up and dirt at beauty parlours.

The absorbent cotton should be chemically inert and soft to give maximum protection and should not cause irritation. These properties can be achieved by manufacturing the product as per standard method of manufacture. The raw cotton is processed by series of steps which render the Cotton hydro-phallic in character and free from external Impurities needed to be fit for use in surgical dressings and Personal hygiene.

## **Uses**

- Surgical/Absorbent cotton is widely used in hospitals, clinics, health centers and pharmacies for medical purposes. It is also used in beauty salons, business organizations and households for various purposes.
- Surgical/Absorbent cotton is mainly used for sanitary purposes and surgical operations as well as for ordinary daily use. It is also usually needed by women during their menstruation period that reoccurs at least once a month.
- Apart from used as a dressing material, it is also used for padding for items of clothing, quilts etc.
