

# Instant Online Project Identification & Selection

## Description:

Project selection is a careful study of each project idea in detail and choosing one of them for further consideration and development. A project idea is universal. However, a project must be implemented in the background of factors such as

- Technology
- Equipment
- Investment
- Location
- Market

Selection process starts with the generation of a product idea. In order to select the Most promising project, the entrepreneur needs to generate a few ideas about the possible projects.
