

60 Potential Project Profiles for new MSMEs. Highly Profitable Business Plan for New Entrepreneur.

Description:

60 Potential Project Profiles for new MSMEs. Highly Profitable Business Plan for New Entrepreneur. List of Manufacturing Business Ideas for Small and Medium Scale Industry.

Micro, Small and Medium Enterprises constitute the backbone of an economy in maintaining an appreciable growth rate and in generating employment opportunities. This sector has been regarded as engine of economic growth and social development in many developed and developing countries. Contribution of MSMEs to the Indian economy in terms of employment generation, containing regional disparities, fostering equitable economic growth and enhancing export potential of the country has been quite phenomenal. Despite some infrastructural deficiencies and challenges like flow of institutional credit and inadequate market linkages, this sector has registered remarkable success with regard to increase in number, quantum of investment, scale of production and overall contribution to national GDP.

MSMEs sector plays a major role in contributing to India's export performance. This sector contributes 45%-50% of the Indian exports out of which direct export accounts for nearly 35% and indirect 15% to the total exports.

Here are few Projects for Startup:

Tomato Ketchup, Tomato Sauce and Tomato Soup

Fruit and vegetable production is labour intensive, as every plant and its products need to be looked after and greater human intervention is needed at the time of harvest, to ensure right size, maturity, colour, ripeness and so on. The fruit and vegetable group is the single largest item in the national statistics on private final consumption expenditure in domestic market.....Read more
