

Banana Products (Banana Powder, Banana Puree and Banana Concentrate) - Manufacturing Plant, Detailed Project Report, Profile, Business plan, Industry Trends, Market research, survey, Manufacturing Process, Machinery, Raw Materials, Feasibility study, Inve

Description:

Banana is the largest produced and maximum consumed amongst the fruits cultivated in India. India ranks first amongst the banana cultivating countries of the world. Banana when ripened is a soft and delicate fruit with a post-harvest shelf life of 5-10 days. This makes it prone to injury during transport. Banana being a 'common man's fruit' is consumed in following forms: Banana Powder, Banana Puree, Banana Juice concentrate etc. Banana powder, because of its high concentration of banana essence, has been found to be a major source of carbohydrate and calories, found to be useful as a general treatment for dyspepsia, contains compounds with demonstrable anti-MRSA activity, anti-HIV replicative activity, and following metabolic transformation by fungi, anti-leishmanicidal activity.

The global production of banana is around 102028.17 thousand tons of which India contributes 29.19%. The demand of Banana Products in market is increasing rapidly due to nutritive and medicinal characteristics of it. India is one of the major country producing banana and its derivatives. Banana Derivatives includes: Powder, Puree, Ice-Creams, Fruit breads, cakes, tarts, muffins, pie-fillings, icings, donuts, fruit bars, milk shakes, yogurts, puddings, toppings, deserts, baby food, etc.
