

Sweet Supari - Manufacturing Plant, Detailed Project Report, Profile, Business plan, Industry Trends, Market research, survey, Manufacturing Process, Machinery, Raw Materials, Feasibility study, Investment opportunities, Cost and Revenue

Description:

The betel nut (Supari) tree, which is known as "ARECA" in South India. It is planted in Bengal, Mysore, Sri Lanka etc. Its yield is considered being very good in Sri Lanka. The betel (Piper betel) is the leaf of a vine belonging to the Piperaceae family, which includes pepper and kava. It is valued both as a mild stimulant and for its medicinal properties. Betel leaf is mostly consumed in Asia and elsewhere in the world by some Asian emigrants, as betel quid or in pan, with or without tobacco with adverse health effects. Betel is notable for staining the teeth of regular users. It is found in various places and its yield is different due to changed climate.

Betel nut chewing has been practiced by natives in various countries since times. So keeping in mind its demand, manufacturers utilising supari as a raw material for making various chewing materials as Supari, Pan chapp gutaka, Pan Masala, Mayur brand sweet supari, scented supari etc. People chew it for stress reduction, feelings of well-being, and heightened awareness. It contains three major alkaloids: arecoline, pilocarpine, and muscarine.
