

Goat Rearing & Breeding Business

Description:

Goat Rearing & Breeding Business. Raising Goat for Milk and Meat Production. Commercial Goat Farming Project

Rearing goats is a profitable business. Goat has been rearing since the time immemorial. Generally goat farming means rearing goats for the purpose of harvesting milk, meat and fiber.

Goat Rearing

Goat rearing is very popular because they are very important and valuable domestic animal. They are one of the oldest domesticated animal species. The farm goat of present time, first domesticated from the southwest Asian and eastern European wild goats. Goat is a member of Bovidae family and both goat and sheep are of Caprinae subfamily. There are more than 300 goat breeds throughout the world.

Goats are generally raised for their highly production capacity of milk, meat, hair and skins. The demand of goat milk, meat, hair and skins is very high in the world market.

Goats also have other uses apart from consumption of the meat. The skin of goats is a very good source of leather which can be used to make bags, shoes and other leather materials. Goat milk is also very nutritious and good for consumption. It is also used in the cosmetic industry to make body creams. Goat offal is also used in the pharmaceutical industry.
