

# WPC Board - Best Alternate of Wood and Plywood

## Description:

### WPC Board - Best Alternate of Wood and Plywood. Production of Wood Plastic Composite (WPC) Board

WPC is made from Plastic and wood. The percentage of plastic in WPC is more than 80%, which makes it 100% Water Proof Termite Proof. WPC can be used just like a plywood. Even all the tools and screws are same as plywood tools screws.

## Applications:

- Modular kitchen (best fit for free water conditions)
- Kitchen cabinets
- Post formed components
- Modular office furniture
- House hold furniture
- Doors
- Windows
- Bathroom vanities
- Bathroom doors
- Back panelling
- Partitioning systems
- Exterior coverings
- Table tops
- Advertisement boards
