The Complete Book on Cultivation and Manufacture of Tea (2nd Revised Edition)

Code: NI242	Format: paperback
Indian Price: ₹1625	US Price: \$150
Pages: 574	ISBN: 9788178331683
Publisher: Asia Pacific Business Press Inc.	

Description

Tea is one of the most popular beverages that are being consumed all over the world. Tea is known as a soothing drink and a way of life. Owing to its increasing demand, tea is considered to be one of the major components of world beverage market. Tea is very beneficial for health and is also known as anticarcinogenic properties. Green tea acts as an antiviral agent. Growing tea requires sufficient amount of work and there is additional level of work that must be incorporated to harvest it. Tea is cultivated in tropical and sub tropical regions. There are various kinds of tea such as black tea, green, oolong tea that can be obtained from real tea plant, *Camellia sinensis*. The making of different varieties of tea mainly depends upon plucking and rolling, spreading, storing process.

The handbook describes aspects of tea cultivation, ranging from the history of old crop, machinery & equipment for various Tea, biological control, organic tea- and many more. This is a sincere attempt to open up the world of this wonderful beverage, its cultivation methods, types of tea available worldwide, manufacturing process, to the common man.

Some of the fundamentals of the book are growth of tea in other countries, tea in Indian economy, biochemical constituents, pharmacological properties, selection, pollination and propagation, nutritional requirements, growth, photosynthesis and respiration, nursery management, water theory, oxidative degradation of protein, biological effect of polyphenols, analysis of tea, tea processing, green tea processing, tea bag production etc.

This book will be a mile stone for its readers who are new to this sector, will also find useful for entrepreneurs, tea scientists and tea research establishments.

Content

1. HISTORICAL EVIDENCES

Tea in India

Growth of Tea in Other Countries

Tea in Indian Economy

2. RELATION WITH HEALTH

The Core Compounds

Flavonoids in Tea Infusion

Antioxidant Activity of Tea Flavonoids

Tea Flavonoids and Cancer

Caveats

3. IMPORTANCE OF THERAPEUTIC COMPOUNDS

Polyphenols

Caffeine

Vitamins

Carbohydrates

Lipids

Triterpenoids

Carotenoids and Pigments

Minerals

Overall Distribution of Compounds

4. PRODUCTION OF THERAPEUTIC COMPOUNDS

Polyphenols

Variations in Specific Compounds

Changes During Processing

Theaflavins and Thearubigins

Discussion

5. BIOCHEMICAL CONSTITUENTS

Biochemical Constituents

Enzymes

Polyphenolic Compounds

Amino-acids

Phosphate Esters, Nucleotides and Caffeine

Carbohydrates

Lipids

Chlorophyll and Carotenoids

Volatile Compounds

Biochemical Changes during Leaf Processing

Withering

Rolling

Fermentation

Development of Aroma

Changes in Carotenes and Fatty Acid

Firing

Biochemical Basis of Tea Quality

6. PHARMACOLOGICAL PROPERTIES

Pharmacological Actions

Pharmacological Aspects Associated with Tea Consumption

Cardiovascular System

Cancer

Tea and Dental Health

Tea and Fluid Replenishment

Gastrointestinal System

Skin and Topical wound Healing Activity

Antimicrobial Action

Angiogenesis Inhibition

Absorption of Tea Flavonoids

Potential Health Concerns Associated with Tea Consumption

Tea and Iron Absorption

Conclusion

7. IMPORTANCE OF BLACK TEA

Composition and Chemistry of Tea

Pharmacological Properties of Tea

Antioxidative Effects of Tea

Modulation of Metabolizing/Detoxifying Enzymes

Modulation of Immune Function

Antimutagenic Activity

Anticarcinogenic Activity

Prevention of Coronary Heart Disease

Germicidal and Antiviral Activity

Regulation of Intestinal Microflora

Prevention of Dental Caries

Conclusion

8. TAXONOMICAL PROPERTIES

Tea Varieties

(1) The China variety

(2) The Assam Variety

(3) The Cambod Variety

Biology of the Plant

Phasic and Vegetative Growth

Tea Flowers and Reproductive Phase

Dormancy

Longevity

Tea Gene Pool

Cytotaxonomy and Chromosome Numbers

Wild Populations of Tea

Germplasm Collection

9. SELECTION, POLLINATION AND PROPAGATION

Development of Seed Varieties

Vegetative Propagation and Development of Clones

Selection for Yield and Quality

Hybridisation

Interspecific Hybridisation

Polyploid Breeding

Mutation Breeding

Tissue Culture and Genetic Engineering

Breeding Strategies

Seed and Clone

Techniques of Vegetative Propagation and Clonal Selection

The Nucleus Plot

Manuring of Mother Bushes

Type of Cuttings

Time of Taking Cuttings

Nursery Bed and Shade

Use of Hormone in V.P.

Clonal Selection Procedure

Mother Bush Selection

Technique of the Seed Bari and Grafting

Bringing into Bearing

Collection

Sorting

Storage and Transport

Upgrading a Seed Bari (Seed Nursery)

Vegetative Propagation (V.P.)

The Mother Bush

The Nucleus Plot

Taking Cuttings

Setting the Cutting

10. CHARACTERISTICS OF SOIL BIOLOGY

Origin and Characteristics of Tea Soils

Soil: Physical Properties

The Basis of Soil Nutrition

Soil Acidity

Soil Physical Properties

Soil Texture

Soil Aggregate

Soil Compactness

Soil Management for Tilth

(a) Drainage

(b) Land Levelling

(c) Cultivation

(d) Lime or Dolomite Applications

(e) Soil Improvement

Soil Biology

Physical Environment

Rainfall

Temperature

Humidity

Wind Speed

Day Length

11. NUTRITIONAL REQUIREMENTS

Nutrient Composition of the Tea Plant

Assimilation of Various nutrients by Parts of the Plant

Individual Nutrients

Nitrogen

Basis of Nitrogen Absorption and Uptake

Sources of Nitrogen

Determination of Quantity for N: K ratio

Phosphorus

Increasing Phosphate Efficiency

Phosphate Uptake and Mycorrhiza

Phosphate Solubilising Microorganisms

Rock Phosphate: Amendments

Interactions of Phosphorus with Other Nutrients

Fertiliser with Soluble Phosphorus

Potash

Potassium Reactions in the Soil

Potassium in Growth Stages of Tea

Factors Affecting Potassium Uptake

Potassium Interactions

Nitrogen: Potash interactions

Interaction with Other Nutrients

Collateral Effects of Potassium

Sulphur

Sulphur Containing Fertilisers

Zinc

Other Micronutrients

Organic Fertilizers

Nutrition and Crop Quality

Deficiency Symptoms

12. GROWTH, PHOTOSYNTHESIS AND RESPIRATION

Carbon Input; Sink Source Ratio

Limitation of CO₂ Assimilation

CO₂ Assimilation and Light Limitation

Regulation of Photosynthesis

Regulation of Photosynthesis by Transport and Partitioning

Effect of Leaf Age on Photosynthesis

Photorespiration and Dark Respiration

Dry Matter Partitioning and Productivity

13. NURSERY MANAGEMENT

Nursery Management

Planting

Land Preparation

Planting Density

Field Planting

Planting Operations

Bringing up of Young Tea and Bush Formation

14. THEORY OF PRUNING, PLUCKING AND

MAINTENANCE FOLIAGE

Theory of Pruning

Types of Pruning

Collar Pruning

Medium Pruning

Top or Light Pruning

Lung Pruning

Skiffing

Choice of Pruning System

Tipping

Shoot Growth

Leaf and Bud Dynamics

Plucking

Plucking System

Plucking Standard

Plucking Interval

Plucking and Maintenance Foliage

(1) Pruning: definitions

(2) Requirements before Pruning

(3) Pruning Administration

(4) Factors Affecting Pruning Time

(5) Crop Distribution

(6) Pruning Cycles

15. HISTORICAL PERSPECTIVE OF SHADE TREES

Historical Perspective of Shade Problem

The Genesis of Shade Problem

Effect of Shade per se

Shade and Light Intensity

Shade and Tea Leaf Temperature

Effect of Shade Trees on Light Climate

Shade and Partition of Growth

Shade Effect on Quality of Made Tea

Current Perspective

Sylviculture of Shade Trees

Mixture of Shade Tree Species

Intimate Mixtures

(a) Square Planting

(b) Triangular Planting

Non-Intimate Mixtures

(1) Tea and Shade Square Planted

Spacing of Shade

(i) Suggested Spacings

(ii) Planting of Shade Trees

Propagation of Shade Trees

16. WATER THEORY

Theory of Drainage

Approach to Drainage Problem

Problems in Tea Areas

Models of Drainage Systems and Water-table

Objective of Drainage
Diagnosis of Drainage Problems
A. Growth Pattern
B. Physical Indicators of Waterlogging
Outline of the Drainage
Designing the Main Drain
The Field Drains and Removal of Surface Water
The Drainage System
Construction of Drains
Pipe Drainage
Rationale of Irrigation
Parameters of Irrigation
Irrigation Requirement: Net and Gross Irrigation Requirements
Irrigation Frequency
Scheduling of Irrigation
Rainfall Deficit
Types of Irrigation
Irrigation Efficiency
Significance of Irrigation in Total Water Management
Soil Conservation
Criteria for Water Relation Between Soil and Tea Plants
Moisture
Soil Water
Moisture Extraction Pattern by Tea Roots
Effect of Drainage and Irrigation
Weed Effect
Effects of Weeds on Tea
Biology of Weeds
Weed Reproduction
Weed Density
Growth
Dispersal of Weeds
Weed Dispersal
Methods of Weed Control: The Manual Aspect
Chemical Weed Control
Herbicides in Tea
Herbicide Mixtures
Application Technology
Perspectives on Weed Management
Common Weeds of Tea

A. Dicotyledonous or Broad Leaved Weeds

B. Monocotyledonous and Grass Weeds

Outline of Weed Control

Manual Control

Mechanical Control

Chemical Weed Control

Preplanting Control of Thatch

Additives for Herbicides

Herbicide Mixtures 'Cocktails'

Weed Control Outside the Tea Area

Equipment

Climatic Factors Affecting Weedicide Application

Safety Precautions

Herbicide Damage to Tea

17. DISEASES OF SEEDS AND CUTTINGS

Diseases of Tea Seeds and VP Nursery diseases

Leaf Diseases

Stem Diseases

Root Diseases

Strategies for Controlling Diseases

Outline of Disease Control

Leaf Diseases

Root Diseases

Secondary Stem Diseases

18. PESTICIDE MANAGEMENT

Crop Losses

Mite Phytophagy

Defoliators

Sap Feeding Insects

Root Damaging and Soil-borne Pests

Pests of Shade Tree and Ancillary Crops

Leaf and Petiole Eaters

Stem Borers

Seasonal Abundance of Pests

Pesticide Specifications for Tea

Pesticides: Applications and Management

Management of Pesticide Residues

Strategies in Pest Management

Outline of Pest Control

Mite Damage

Insect Attacks

Young Tea Sick or Dying

New Flush Stunted

19. BENEFICIAL IN CANCER

Lifestyle and Diet in Cancer

Effect of Tea in Animal Systems

Prevention of Cancer in Man

Effects of Tea on the Incidence of Human Cancer

Interaction of Genetic Actions in Carcinogenesis in Humans

20. CANCER PREVENTION

Cancer-an Overview

Cancer and the Intrinsic Defense Machinery of the Host: A Tug-of-War

Why Cancer Therapy Fails

Dietary Therapy

Why Tea?

Tea and Its Constituents - A Historic view

Hypothesis

(1) Direct Effect of Tea in Tumor Regression

(2) Indirect Effect of Tea in Cancer Prevention: Tea-induced Tumor Regression by Rejuvenation of Host's Intrinsic Defense Machineries

Conclusion

21. OXIDATIVE DEGRADATION OF PROTEIN

Materials and Methods

Results

Discussion

22. BIOLOGICAL EFFECT OF POLYPHENOLS

Biological Effects

Chemoprevention

An Overview

23. PREVENTING BONE LOSS

Functions of Marketing

Promotional Techniques

The Product Concept

The Sales Process

24. ANALYSIS OF TEA

Analysis of Green Tea Leaf

Sampling

Polyphenols

Determination of Total Polyphenols

Separation and Identification of the Individual Polyphenols

Determination of Flavonol Glycosides

Determination of Flavylogens

Determination of Phenolic Acids

Amino Acids

Carbohydrates

Chlorophyll

Carotenoids

Minerals

Enzymes

Analysis of Manufactured Black Tea

Traditional Methods

Alkaloids

Polyphenols

Separation of the Polyphenols

Analysis of Theaflavins and Thearubigins

Determination of Total Tannin

Cream

The Aroma Complex

Analysis of Instant Tea

25. TEA PROCESSING

Types of Tea

Brief Outline of Tea Manufacturing Process

Withering

Rolling

Fermentation/Oxidation

Drying

Sorting and Grading

Storage and Packaging

Tea Manufacturing Process Flow Diagram-CTC

CTC

Orthodox

Withering

Rolling

Fermentation/Oxidation

Drying

Sorting and Grading

Storage and Packaging

Tea Manufacturing Process Flow Diagram-Orthodox

Tea Manufacturing Process

Quality Control

Oolong Tea

Oolong Tea Process

White Tea

Source of Technology

Machinery and Equipment

CTC Tea Processing

26. GREEN TEA PROCESSING

Green Tea Ingredients

Green Tea Processing

Pan Firing or Steaming

Rolling

Drying/Firing

Sorting/Grading/Packing

Tea Manufacturing Process Flow Diagram - Green Tea

Machinery and Equipment

Green Tea Processing (Moroccan Type)

27. TEA BAGS

Tea Bag Processing

Tea Bag Filter Papers

Non-Heat Sealable Filter Papers

Heat Sealable Filter Papers

Withering

Rolling

Drying

Milling

Blending

Measuring

Tea Bag Assembly

Tea Manufacturing Process Flow Diagram - Tea Bag

Process of Tea Bag Manufacturing

Machinery and Equipment

28. MACHINERY & EQUIPMENT FOR CTC TEA/

ORTHODOX TEA/OOLONG TEA/TEA BAGS

1. Withering

Axial Flow & Centrifugal Fans

Technical Data

Centrifugal Fans (Hot Air, Induced Draft and Fermenting Fans)

Technical Data

Direct Fired Oil/Gas Heaters

2. Rolling

Rotovanes (Rolling Solutions For CTC Tea)

Technical Data

Sifter-CTC Machines

Technical Data

Balanced Green Leaf Sifter

‘Rotomax’ Rolling Tables for Orthodox Tea

3. Fermenting/Oxidation

Continuous Fermenting Machines (The Ideal Fermenting Solution)

Technical Data

4. Drying

Fluidized Bed Tea Dryers

Technical Specification

Advanced Conventional Tea Dryers

Technical Specifications

Indirect Fired Coal/LECO/Firewood Heaters

(The Most Efficient Solid Fuel Based Indirect Fired Heaters for the Tea Industry)

Technical Specifications

Chain Grate Stokers

Technical Specification

Ghoogie

5. Sorting & Grading

‘Fibro’ Slow Speed Fibre Extractor

(Horizontal Design Vibratory Sifter & Grader for Tea)

Vibro Screen Sorter

(Vertical Design Vibratory Sifter & Grader for Tea)

Pulverizer

Powdering Machine for Tea

6. Packaging

Range of Packaging Machine (Menu Driven Computerized Pneumatically Controlled)

Vertical Form-Fill-Seal Machines

Pillow Pack FFS Machines for Granules

Technical Specification

Tea Bag Packaging Machine

Technical Specification

28. MACHINERY & EQUIPMENT FOR CTC TEA/TEA/ OOLONG TEA/ TEA BAGS

About NIIR Project Consultancy Services (NPCS)

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
