The Complete Technology Book on Candle Making & Designs

Code: NI40	Format: paperback
Indian Price: ₹650	US Price: \$100
Pages: 354	ISBN: 8186623663
Publisher: National Institute of Industrial Research	

Description

Candles have been used for luminosity and to light up man's celebrations for more than thousand years. The ancient Egyptians have been credited with the honour of developing the first candle, who used rush lights or torches made by soaking the pithy core of reeds in melted animal fat. However, the rush lights had no wick like a true candle. The development of candle to the present stage went through several stages. Candle making today has taken a shape of small scale industry. It has got attention of a lot of people. From celebrities to designers all are trying their hand in this emerging industry. One pertinent reason is that the use of candle now has not been confined only for devotional purpose or some special occasion. They are now a part of every single moment is it special or routine. They add a touch of warmth in the occasion and that does why have become largely popular.

Creativity has added a new spark to the candle making industry. Candle making is a very flourishing industry in modern times owing to the versatile use of candles on various occasions and ceremonies. Candles are prepared by well established methods in multifarious fascinating colours, designs and shapes. The book is one of the best seller and has chapters on: Thermometer Weighing scales ,Measuring flask or jug ,Dipping can ,Bowl ,Iron, Hairdryer ,Pouring jug Materials ,Wicking needle ,Wick ,Wax , ,Dipping ,How to dipped candles Method ,More about dipping , Appliquéd candles ,Painting with wax ,Transfers ,Surface techniques Pressed flowers and grasses How to pressed flower candle Over dipping, etc.

This is one of its kind book which deals ostensibly with different candle making processes viz. Dipping, Pouring, Moulding or Casting and Drawing, delineating their technicalities in most illustrious manner with pictorial representations. The book will significantly add your knowledge if you are looking for comprehensive information on candle making industry to start their venture in said industry.

Content

Introduction

Equipment and materials

Equipment

Heat source

Double boiler

Thermometer

Weighing scales

Measuring flask or jug

Dipping can

Bowl

Iron

Hairdryer

Pouring jug

Materials

Wicking needle

Wick

Wax

Additives

Wax glue

Mould seal

Dyes and perfumes

Creating colour

Using perfumes

Common sense with wax

Working with heat

Fire safety

Working with wax

Preventing accidents

Cleaning up

How to begin

Working with heat

Priming wicks

How to priming wicks

Method

Dipping

How to dipped candles

Method

More about dipping

Over dipping

How to over dipping (blue on white)

Method

Hand finishing

How to plaited candles

Method

How to twisted candles

Method

Rolling

How to flared spiral candles

Method

Beeswax sheet

How to tapered beeswax candles

Method

Hand modelling

Perfumed wax flowers

How to floating rose

Method

Wax fungi

How to fly agaric toadstool

Method

Common sense with candles

Fire Safety

Workshop Wisdom

Prevention

Cure

Dipped candles

Basic dipped candles

Overdipped candles

Spiral candles

Using templates

Floating candles

Beeswax sheets

Column candles

Spiral candles

Decorative candles

Sand candle

Stencilled candles

Surface texture
Appliqued candles
Painting with wax
Transfers
Surface techniques
Pressed flowers and grasses
How to pressed flower candle
Method
Applique
Inlays
How to bulls eye candle
Method
Carving
Method
Dip and iron back
Method
Hammering
Painting
Novelty candles
Whipped wax candles
How to ice cream cone
Method
Birthday cake candles
Balloon candles
How to balloon candle
Method
Sand candles
How to sand candle
Method
Water candles
How to water candles
Method Plunge
Method Pour
Ice candles
How to ice candle
Method
Burning down
Faults
Dipping
Casting in Moulds

Advanced Surface Techniques

Dip and carve

How to dip and carve candle

Method

Peeled Banana

How to peeled Banana Candles

Method Fruit

Method skin

Cutting corners

How to basic techniques

Method Dipping

Method Cut and Curl Corners

Method spirals

Snakes

About NIIR Project Consultancy Services (NPCS)

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
