The Complete Book on Ginger Cultivation and Manufacture of Value Added Ginger Products (Ginger Storage, Ginger Oil, Ginger Powder, Ginger Paste, Ginger Beer, Instant Ginger Powder Drink and Dry Ginger from Green Ginger)

Code: NI308	Format: paperback
Indian Price: ₹1575	US Price: \$150
Pages: 352	ISBN: 9789381039854
Publisher: NIIR PROJECT CONSULTANCY SERVICES	

Description

Ginger is the common name for *Zingiber officinale*, which was originally cultivated in China and now equally spread around the world. Ginger is a herb but is often known as a spice, with a strong distinct flavor that can increase the production of saliva. The part that is used as spice on the plant itself is the rhizomes or ginger root. This ginger root is traditionally used with sweet foods in Western cuisine being included in popular recipes such as ginger ale, gingerbread, ginger biscuits and ginger cake. It is also used in many countries as a medicinal ingredient which many believe in. Historically, ginger has a long tradition of being very effective in alleviating symptoms of gastrointestinal distress. In herbal medicine, ginger is regarded as an excellent carminative and intestinal spasmolytic. Modern scientific research has revealed that ginger possesses numerous therapeutic properties including antioxidant effects, an ability to inhibit the formation of inflammatory compounds, and direct anti-inflammatory effects.

India is the leading producer of ginger oil and dominates the ginger oil market with almost half shares out of total market. China is also known for ginger production and trade of ginger oil. Asia Pacific mainly exports ginger oil to North America and European markets.

Increasing number of health conscious consumers, and their demands for natural oils and extracts based products is the major factor driving growth for essential oils and in turn ginger oil market. Ginger is majorly used in spices and thus ginger oils and

oleoresins are preferred to prepared dried spices as flavoring in food industry, because they are more stable, contamination free, cleaner and can be easily standardized by blending. Thus the growth of food industry and spices demand are another factors driving growth of ginger oil market. The growth of natural personal care products industry is another growth driver for ginger oil market.

The major content of the book are Ginger Cultivation, Farm and Forestry Production for Ginger, Diseases & Pest Management in Ginger, Medicinal Values of Ginger, Active Ingredients of Ginger, Pharmacological Activity of Ginger, Ginger Storage, Ginger Processing, Ginger Oleoresin, Ginger Oil, Ginger Beer, Ginger Powder, Ginger Paste, Instant Ginger Powder Drink, Ginger Candy, Dry Ginger from Green Ginger, Extraction of Ginger Oleoresin from Ginger-Root Using Co₂, Production of Ginger Rhizome by Shoot-Tip Culture, Extraction of Essential Oils from Ginger Rhizome Using Steam Distillation Method, Packaging and Labelling BIS Specifications, Good Manufacturing Practices, Sample Plant Layouts, Photographs of Machinery with Suppliers Contact Details.

This book will be a mile stone for its readers who are new to this sector, will also find useful for professionals, entrepreneurs, those studying and researching in this important area.

Content

1. INTRODUCTION

History and Origin of Ginger

Processing of Ginger

Peeling

Drying

Storage

Bleached Ginger

Transplanting Technology for Reduction of Seed
Cost

Technology

Manuring

Irrigation

Inter Cultivation

Inter Cropping and Crop Rotation

Uses of Ginger

Best Ways to Use Ginger

Bioactive Components of Ginger

Metabolism of Ginger

Properties

Applications of Ginger

Ginger Health Benefits

1. Stroke and Heart Disease

2. Indigestion and Nausea

3. Malabsorption

4. Compromised Immunity and Respiratory
Function

5. Bacterial Infections

Healing Properties

Cosmetic Uses of Ginger

Nutritional Value of Ginger

Nutrient Profile for Ginger

2. GINGER CULTIVATION

Climate and Soil

Soil for Ginger Farming

Varieties

Planting Season

Preparation of Land

Manures and Fertilisers

Mulching

Crop Nutrition

Nitrogen

Potassium

Phosphorus

Calcium

Earthing up

Growth Regulators

Harvesting and Curing

Production Technology

Seed Size

Seed Rate

Seed Treatment

Planting

Spacing

Depth of Planting

Crop Rotation

Storage of Seed Rhizomes

Alternate Method of Ginger Production

3. FARM AND FORESTRY PRODUCTION FOR GINGER

Uses and Products

Botanical Description

Brief Botanical Description

Distribution

Environmental Preferences and Tolerances

Climate

Soils

Growth and Development

Agroforestry and Environmental Services

Propagation and Planting

Cultivation

Special Horticultural Techniques

Advantages and Disadvantages of Growing in Polycultures

Pests and Diseases

Susceptibility to Pests/Pathogens

Preventing and Treating Problem Pests and Diseases

Disadvantages of this Crop

Potential for Invasiveness

Commercial Production

Postharvest Handling and Processing

4. DISEASES & PEST MANAGEMENT IN GINGER

Diseases

1. Soft Rot or Paheli: *Pythium Aphanidrematum*
Management

2. Dry Rot: *Fusarium* and *Pratylenchus* Complex
Management

3. Leaf Spot/Blight: *Phyllosticta Zingiberi*
Management

4. Bacterial Wilt or Prem Rog: *Ralstonia Solanacearum*

Integrated Pest and Disease Management for Ginger

5. MEDICINAL VALUES OF GINGER

Active Compounds in Ginger

Anti-Inflammatory & Anti-Oxidant

Nausea
Digestion
Cholesterol
Cancer
Anti-Bacterial
Migraines
Drug Interactions
Malabsorption
Bacterial Diarrhea
Anticarcinogenic Activities of Ginger
Therapeutic Health Benefits of Ginger
Ginger as Growth Promoter
Osteoarthritis
Use of Ginger as a Traditional Medicine
Role of Ginger and Its Constituents in Prevention
and Treatment of Gastrointestinal Cancer
Gastric Cancer
Pancreatic Cancer
Liver Cancer
Colorectal Cancer
Cholangiocarcinoma
Clinical Studies of Ginger against GI Cancer
Ayurveda Health Benefits of Ginger
Trikatu for Weak Digestion
Dry Ginger is Hot and Warms the Lungs and
Dries Cold Phlegm
Fresh Ginger Warms the Stomach and Promotes
Digestion and Absorption
Fresh Ginger to Disperse Cold, and to Treat
Colds and Coughs
Ginger Root Contraindicated in Pitta Elevation
Ginger Root in Ayurvedic Churnas
6. ACTIVE INGREDIENTS OF GINGER
Introduction
Chemical Structure of Active Constituents
Mechanism of Action of Ginger in Diseases
Management
7. PHARMACOLOGICAL ACTIVITY OF GINGER
Introduction
Pharmacology

Antiemetic Effects
Anti-Inflammatory Effects
Antioxidant Effects
Cardiovascular Effects
Gastrointestinal Effects
Antitussive Effects
Immunomodulatory Effects
Lipid Effects
Weight Loss Effects
Antiarthritic Effect
Antimicrobial Activities
Radio Protective Activity
Antigenotoxic Activity
Mutagenicity

8. GINGER STORAGE

Types of Ginger
Composition of Ginger
Ginger Storage Process
Controlled Temperature and Humidity Storage

9. GINGER PROCESSING

Introduction
Forms of Ginger
Processing Dried Ginger
Making Dried Ginger
Quality Assurance of Dried Ginger
Grading
Grinding
Packaging
Storage
Ginger Oil Distillation
Advantages of Ginger Dehydration
1. Enhance Ginger's Value
2. More Cost-Effective
3. Wide Application
Hot-Air Circulation Drying Technology
Process Flow Sheet

10. GINGER OLEORESIN

Uses

11. GINGER OIL

Introduction

Solubility
Chemical Composition
Uses and Application
Packing and Marking
Manufacturing Process
Preparation of Raw Material
Cleaning
Milling
Soaking
Loading or Charging
Bleaching of Ginger
Practice of Distillation
Steam Distillation
End of Distillation
Treatment of the Volatile Oil
Treatment of the Distillation Water
Manufacturing Process Flow Diagram
Rectification of Essential Oils
Problems Relating to Steam Distillation
Environment Pollution and Effluent Treatment

12. GINGER BEER

Ginger Beer
Root Beer
Ancient Root Beer Heritage
Best Ginger Beers

13. GINGER POWDER

Introduction
Properties
Uses of Ginger Powder
Manufacturing Process of Ginger Powder
Process Flow Sheet

14. GINGER PASTE

Properties of Ginger Paste
Uses of Ginger Paste
Chemical & Physical Specification of Ginger
Manufacturing Process
Process Flow Diagram

15. INSTANT GINGER POWDER DRINK

Introduction
Etymology

Chemistry

Uses

Culinary Use

Ginger Acts as a Useful Food Preservative

Regional Use

Properties

1. Citric Acid

2. Measurement

3. Sodium Benzoate

Manufacturing Process

16. GINGER CANDY 201

Ginger Candy

Flow Chart of Technology/Process

17. DRY GINGER FROM GREEN GINGER

Introduction

History

Uses and Application

Composition of Dry Ginger

Manufacturing Process

Process of Manufacture

Ginger not Divested of Cork

Ginger Clivested of Cork

Grinding

Progress Flow Sheet

18. EXTRACTION OF GINGER OLEORESIN

FROM GINGER-ROOT USING CO₂

Environmental Significance

Equipment Descriptions

Necessary Information and Simulation Hints

19. PRODUCTION OF GINGER RHIZOME BY

SHOOT-TIP CULTURE

Introduction

Field Study

Effect of Tissue Cultured Rhizomes of Ginger

20. EXTRACTION OF ESSENTIAL OILS FROM

GINGER RHIZOME USING STEAM

DISTILLATION METHOD

Overview of Ginger

Physical Properties of Ginger

Usage of Ginger

Usual Methods of Obtaining Ginger Essential Oil

Steam Distillation

Problem Statement

Separation Processes

(i) Absorption

(ii) Distillation

(iii) Liquid-Liquid Extraction

(iv) Leaching

(v) Membrane Processing

(vi) Crystallization

(vii) Adsorption

(viii) Ion Exchange

- Purification

- Concentration

- Fractionation

Extraction

Distillation

21. PACKAGING AND LABELLING

Functions of Packaging

22. BIS SPECIFICATIONS

23. GOOD MANUFACTURING PRACTICES

1. Storage of Raw Materials

2. Tempering/Thawing of Frozen Materials

3. Processing

Post-Processing Handling

i) Facility Design

ii) Sanitation

iii) Employees

Material Handling

4. Storage of Finished Product

5. Loading and Shipping

Management of Hygiene Aspects

Environmental Monitoring

Temperature Monitoring

Design and Facilities

i) Principles and Concepts of GMP

ii) Establishment: Design and Facilities

Location

Equipment

Premises and Rooms

Equipment – Design

Equipment

Facilities

Control of Operations

i) Control of Food Hazards

ii) Key Aspects of Hygiene Control Systems

iii) Incoming Raw Material Requirements

iv) Packaging

v) Water

vi) Management and Supervision

vii) Documentation and Records

viii) Recall Procedures

Establishment: Maintenance and Sanitation

i) Maintenance and Cleaning

ii) Cleaning Procedures and Methods

iii) Pest Control Systems

iv) Waste Management

v) Monitoring Effectiveness

vi) Establishment : Personal Hygiene

vii) Transportation

viii) Product Information and Consumer

Awareness

ix) Training

About NIIR Project Consultancy Services (NPCS)

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and/or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directories, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists, and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureaus, consultants and consultancy firms as one of the inputs in their research.
