Cost of Project:	119.00 Lakh

Municipal waste are wet solid waste which comes out from the domestic waste, marketing area waste, slaughter? s house waste, dead animal waste, paper and packaging waste, mixed together as well as it is mixed with masonry waste. Municipal waste is basically treated by tunnel reactor. Basically this is waste treatment process. Now a days modern world is full of load of pollution. To reduce the pollution it is necessary to treat the waste material to form wealth. It is needless to say for the benefit of human beings, it is necessary to treat the municipal waste to produce end products which have commercial value as well as to clean the environment. Demand for such municipal waste treatment processes is bound to go up. You can invest in this project.
