Management of Rabbits/Angora Rabbit Farming

In many rural areas, the materials for building rabbit cages and insulated housings and electricity are often not available. Hence, management of rabbit and farming of the same in proper scientific process is very important. Because, the woolen product from the angora rabbit has tremendous market demand. Though rabbit farming and thereby production of wool is an unorthodox business, but due to the huge market demand of the products from this wool, it is a profitable sector. To set up the firm, the total fabrication process technology and experts are indigenously available in India. Plant and machineries also is fully available in India. Though initial cost for the setup is high, but it can be a successful venture for new comers.
