Vanilla (*vanilla planifolia* Andrews) is a climbing orchid. It is the second most expensive spice after saffron and is valued for its pleasant flavour. The principle sources of vanillin (B-glycosidase) is obtained from its cured beans. The main limitation in the cultivation of vanilla in India is the lack of knowledge of cultural aspects. Vanilla seed processing goes through several stages of processing, during seed fermentation and drying, it will develop good flavour and aroma. Vanilla is largely used in the preparation of ice-creams, chocolates, bakery products, puddings etc. The process technology as well as plant and machineries are fully available in India. As a whole it is a good project for few entrepreneur who are innovative.
