Banana leaves have a wide range of applications because they are large, flexible, waterproof and decorative. They are used for cooking, wrapping and food-serving in a wide range of cuisines in tropical and subtropical areas. They are used for decorative and symbolic purposes in numerous Hindu and Buddhist ceremonies. In traditional home building in tropical areas, roofs and fences are made with dry banana-leaf thatch. Banana and palm leaves were historically the primary writing surfaces in many nations of South and Southeast Asia.

Banana leaf plates is best described as a revolutionary Disposable cutlery and containers are products that are a part of our day to day life. Disposable items like cups, plates, saucers are being increasingly used. Such disposable items are made with natural materials like leaf as well as man made products like paper, plastics. Leaf cups, plates have greater hygiene value. Banana leaf plate making is a state of the art to develop biodegradable and compostable alternatives to Petrochemical based plastics and polystyrene. Product and is strong just like the ordinary pulp paper plates and are made from natural, biodegradable product. These leaf plates are popular among those who appreciate the concept of using natural plate materials in an original and organic way. The banana leaf plates can be manufactured with the best quality leaves and are distinct in style. These are the perfect pieces used for serving any occasion, party, gatherings or grand party. These plates can be easily disposed and are environment friendly. Environment friendly products helps to keep the environment clean and make the planet good to live. Presently most of the disposable containers are made from plastics and paper. But the use of plastics is either discouraged or banned because the cause environmental pollution. Hence, banana leaves as an alternative material, offers great usage and health environment. These plates are itself very strong, and hot, cold, heavy and sloppy food is easily coped with.
