The general outlook for the cement industry is fulfilled the situation in a large body of Indian Industry, with a market rise in production failing to generate adequate profitability. In some quarters, the mini-cement plant has been following, since it opens up possibilities of exploiting small deposits of limestone in difficult and thereby contributes to the socialist pattern on the other hand. There has been a bright scope in setting up mini-cement plant. Indian Government is providing a scheme of soft loans to current units wishing to convert from wet to dry. With the combination of all these new development the industry may with luck play its full role in the national programme
