Graphite Crucible

| | |
|----------------------------------|-----------|
| Capacity: | 0 |
| Plant and machinery cost: | 0.00 Lakh |
| Working Capital: | 0.00 Lakh |
| Rate of return(ROR): | 0.00 % |
| Break Even Point (BEP): | 0.00 % |
| TCI: | 0.00 Lakh |
| Cost of Project: | 0.00 Lakh |

The Graphite Crucibles are designed to melt metals such as gold, silver, copper, and aluminum. Graphite crucible can withstand the high temperature, and has good resistance to chemical erosions and thermal shock. Especially graphite crucible is ideal for the melting of aluminum, copper and other metals.

The modern crucible is a highly heterogeneous, graphite-based composite material, which relies on its material composition and control of the graphite's structural alignment to achieve the performance required. Crucibles are used in fuel-fired furnaces, in electric resistance furnaces, in induction furnaces or simply to transfer molten metal. They come with or without pouring spouts and in a wide variety of traditional and specialized shapes.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
