Fireworks are a class of low explosive pyrotechnic devices used for aesthetic and entertainment purposes. The most common use of a firework is as part of a fireworks display (also called a fireworks show or pyrotechnics), a display of the effects produced by firework devices. Fireworks competitions are also regularly held at a number of places. Fireworks take many forms to produce the four primary effects: noise, light, smoke, and floating materials (confetti for example). They may be designed to burn with colored flames and sparks including red, orange, yellow, green, blue, purple, and silver.

Fireworks are a kind of beautiful things can send out variety colors spark when light it in air, main make up from gunpowder and medicinal usher. Spark present different colors is due to burning of different metals occur flame test. It usually used in holiday celebrate.
