Red Oxide Paint

Capacity:	0
Plant and machinery cost:	0.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	0.00 %
Break Even Point (BEP):	0.00 %
TCI:	0.00 Lakh
Cost of Project:	0.00 Lakh

Red oxide paint is a coating applied to a surface or substrate (base material) to decorate and protect the material from corrosion. The red oxide paints are manufactured from red iron oxide which can be obtained either from nature or manufactured synthetically from scrap iron.

Red oxide paints are widely used in the decorative as well as in industrial coatings. The function of red oxide pigment is to provide color and opacity, to enhance film's durability and hardness and in primers to suppress corrosion and reduce the moisture permeability of films. Red oxide paint is used in various activities of the metal manufacturing and construction sector. Its end users are numerous and cover a wide geographical area.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
