Plaster of Paris Board from Process of H-Acid

Gypsum Waste

Capacity:	0
Plant and machinery cost:	0.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	0.00 %
Break Even Point (BEP):	0.00 %
TCI:	0.00 Lakh
Cost of Project:	0.00 Lakh

Plaster of Paris is a white powder obtained by heating Gypsum. Gypsum $\{CaSO_4 \cdot 2H_2O\}$ is a calcareous stone available in Gujarat, Rajasthan and many other parts of India and the world.

Plaster of Paris [POP] boards are prepared on machine, adopt a similar process and due to mechanization, production rate is much faster. The POP boards are used for false ceiling, panelling and partitioning. POP boards are cheaper than most of the other boards. These are fire retardant and termite proof. Textured or half-perforated boards serve as good acoustic surface material. POP boards can be painted, laminated or veneered.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business.
