Manufacture of Jeans & Shirts is one of the important product of readymade garments. The trend for using ready-made garment is increasing day by day. Ready to wear garments like jeans are finding more and more acceptance in the country as well as in export market mainly due to low cost of fabrication, saving of cloth as well as time. There is tendency on the part of textile mills to enter in this field of making jeans & shirts readymade garments. Status and lifestyle are manifested in and expressed by consumption of 300 ml of coloured water or a length of indigo blue cloth. Jeans are the generational garb of young people everywhere. The future of the garment export industry appears bright. There is very good scope for new investment.
