Sugarcane juice is a very delicious drink during summer, contains many minerals and has nutritive value. It is a major constituent of glucose and sugar. Glucose being a major stamina-enhancer, sugarcane juice is a pure and natural refreshment and is available in every town and city. This juice can be easily preserved with its taste and aroma remaining intact. It can be sealed in container and transported to places where sugarcane is not available or is too costly. Sugarcane juice has good export potential and good marketability as consumption of juice is increasing in various countries. In India there are a number of units engaged in the preparation of different types of juice. A new entrepreneur can enter this field, as there is good potential for market and export.
