Sand lime Bricks Manufacturing

Capacity:	60000 Nos./Day
Plant and machinery cost:	51.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	53.00 %
Break Even Point (BEP):	38.00 %
TCI:	182.00 Lakh
Cost of Project:	182.00 Lakh

In the construction industry in India, while efforts are being made to introduce new technologies to expedite the work process and streamline it, the materials incorporated in production have not seen much upgradation. Sand lime bricks are used for the all building construction. These bricks do not have any effects on motors materials or concrete or upon materials used for damp-proof courses, flashing, ties or faslenings provided that the sand or other aggregate used is free from soluble salt and does not have a high alkali content. Sand lime bricks have allowed co-efficient of variation of strength, thus enabling the designing of brickwork with a low factor of safety. By the use of high strength sand lime bricks in place of clay-bricks or stone masonry, wall thickness can be reduced even for multistoried buildings. It has good scope according to selected area where brickfield is required.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
