## Potassium Iodate

|                                  |             |
|----------------------------------|-------------|
| <b>Capacity:</b>                 | 252 kgs/Day |
| <b>Plant and machinery cost:</b> | 27.10 Lakh  |
| <b>Working Capital:</b>          | 0.00 Lakh   |
| <b>Rate of return(ROR):</b>      | 63.00 %     |
| <b>Break Even Point (BEP):</b>   | 27.00 %     |
| <b>TCI:</b>                      | 204.78 Lakh |
| <b>Cost of Project:</b>          | 204.78 Lakh |

Potassium iodate is the major chemical used for ionization of edible common salt. It is also used as feed additives and as maturing agents. Besides this it is used as dough conditioner in bread industries for bread manufacturing. Now almost all industries are compelled to iodize the common salt for edible purposes. Its demand has been increased to multi fold in India and even other countries of the world. The export of the Potassium iodate is very negligible. So a new entrepreneur can well venture in this field by installing the said unit in any part of India.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
