Potatoes are consumed in varied forms all over the world. They are also processed into powder form in order to prevent-their spoilage. Potato Powder is highly concentrated and nutritious flour ground from the pulp of cooked potato. It is used as thickening agent in soups and stews and for breading meats and fish. It is mostly used by armed forces and the civilian trade. About 70% of the total indigenous production of potato powder is exported to various countries. So a new entrepreneur can well venture in this field by installing an unit of potato powder.
