Electric switches, plugs, sockets and other accessories etc. are nothing but electric fitting which are quite familiar to the people as it is found in every home. They can be manufactured using different raw material e.g. steel, brass, thermosetting or thermoplastic resins. Switches, sockets, plugs and kit kat fuses are used for utilizing grid electricity supply at 220/250 volts. They are fancy, hard material and impact resistant. Bakelite moulding powder made plastic switches sockets have reasonably long life. Larger industries and industrial complexes prefer to obtain power connection at high voltage form the utilities and maintain their own receiving substations. Wide spread use of electricity creates demand for consumer. So there is a good scope for a new entrepreneur.
