CEMENT WATER PROOFING COMPOUND

Capacity:	100 Kg./Day
Plant and machinery cost:	2.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	41.00 %
Break Even Point (BEP):	39.00 %
TCI:	11.00 Lakh
Cost of Project:	11.00 Lakh

Water resistance or proofing is an important factor in health and comfort of building occupants. Water proof construction implies the use of a membrane or a film that provides a barrier and covers all surface pores or capillaries. Cement water proofing compounds or water repellent agents are widely used in civil construction works. They are used in the masonry works like dams etc., in the godowns, basements and storage tanks. Among the various varieties of cement, the most commonly used in India is the ordinary portland cement, which is popularly known as gray cement. The largest share in the total consumption of cement is of ordinary portland cement, accounting for more than 70%. OPC is manufactured by grinding clinker with a small quantity of gypsum. It is used in mass and reinforced concrete, and all types of general concrete constructions. There is a good scope for new entrants.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
