Rate of return(ROR):	53.00 %
Break Even Point (BEP):	31.00 %
TCI:	500.00 Lakh
Cost of Project:	500.00 Lakh

A larger part of the average family's food bill goes on protein foods e.g. cheese, eggs and fish etc., which are important parts of a healthy and well-balanced diet. Now-a-days people are turning to fresh-water fish such as rainbow trout, carps and tench, which can be raised in ponds and ornamental garden pots. These fish make an attractive substitute for the unproductive gold fish, golden or golden rudd etc. Consider the advantages of raising fish in your ponds. Sea fish and fresh water fish can never be as fresh as they are newly caught. Existing natural pool make an excellent home for fresh water fish. The seafood industry in India has come a long way and today a wide range of seafood products are exported to more than 70 countries in the world. The major ones include shrimp, squid, cuttlefish, oyster, lobster and shark. There is a good scope for new entrants.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
