FERROALLOYS OF NIOBIUM, MOLYBDENUM, TITANIUM, TUNGSTEN AND VANADIUM

Capacity:	5 MT/Day
Plant and machinery cost:	200.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	50.00 %
Break Even Point (BEP):	41.00 %
TCI:	500.00 Lakh
Cost of Project:	500.00 Lakh

Ferroalloys are the principal alloying agents in iron and steel production. Addition of ferro alloys improves mechanical and physical properties of iron and steel products such as strength, toughness, hardness and corrosion-resistance etc. Most of the ferro alloys contain less than 50% of iron content. The use of highly flexible furnaces make it possible to produce a range of ferro alloy compositions. Ferro alloys are employed in metallurgy for finishing carbon steels, for producing alloy steels and special steels with improved physical and mechanical properties. The demand for ferro alloys has been increasing with that of alloy and special steels. It is expected to reach the level of 1.20 m tonnes by 2006-07. The industry has tied up with companies in Europe for technology inputs. The major users of alloy steel are: auto industry, railways, forgings, tubes, springs and other engineering industries. So, there is good future for existing as well as new entrepreneurs.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
