## GALVANIZED IRON WIRE

|                                  |              |
|----------------------------------|--------------|
| <b>Capacity:</b>                 | 8.00 MT./day |
| <b>Plant and machinery cost:</b> | 70.00 Lakh   |
| <b>Working Capital:</b>          | 0.00 Lakh    |
| <b>Rate of return(ROR):</b>      | 46.00 %      |
| <b>Break Even Point (BEP):</b>   | 32.00 %      |
| <b>TCI:</b>                      | 419.00 Lakh  |
| <b>Cost of Project:</b>          | 419.00 Lakh  |

The production of G.I. Wire from H.B. wire is not complicated. In case of H.B. wire drawing from H.B. bars, certain mechanical process is used. An important difference between bar drawing and wire drawing is that the bars must remain straight. The length of the bars, which can be drawn, is limited by the maximum travel of the carriage, which may be from 50 to 100 feet. Wire and wire products, including flat strips are one of the largest consuming items. G.I. Steel wires of standard quality are used for the manufacture of ropes for various applications, barbed fencing and nails etc. Although the G.I. flat wires are manufactured from mild steel as starting material, range over a wide field. The project, however, is designed to turnout only wires, which have the largest demand, i.e. flat wires or strip in galvanized form. There is a good scope for new entrepreneurs to venture into this field.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
