BAKERS YEAST

Capacity:	5 MT/day
Plant and machinery cost:	292.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	45.00 %
Break Even Point (BEP):	47.00 %
TCI:	535.00 Lakh
Cost of Project:	535.00 Lakh

There are two types of yeast as compressed yeast and dry yeast. It is convenient to use dry yeast powder for bakeries because its handling is simple and its preservation is easy. Yeast is a living organism, which requires warmth with food and liquid so that it can live and reproduce. Bakers yeast can be used for making bread, biscuits and pasta etc. It can also be used for making alcohol from waste sugar, dried yeast, yeast capsules etc. The activity of compressed yeast is high but it cannot stand for long-time. The dry yeast has low activity and can be stored for more time. The total estimated production in India is about 22000 tonnes per year. While the consumption is about 27000 to 28000 tonnes in a year. To fill the demand gap of 5000 to 6000 tonnes between production and consumption, so few more industries are required.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
