Cement Water Proofing Compound

Capacity:	0
Plant and machinery cost:	0.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	39.28 %
Break Even Point (BEP):	48.99 %
TCI:	0.00 Lakh
Cost of Project:	0.00 Lakh

Cement is a very important building material. It is used in almost all the constructions and is subjected to water in contact. If the concrete or cement is water-absorbing then leakage will occur and will destroy construction. The material used for checking this absorption of water is known as water proofing compound. Water-proof cement is used in water-tanks, sewer pipes and so many other constructional like dams, bridges etc. Due to its applicability in numerous construction works, the demand for this product is continuously increasing now-a-days. Moreover, due to uneven supply of the product, there is a good demand for it, and a project for its manufacture on small scale can be visible.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
