Aluminium Alloy From Scrap and Virgin Metal

Capacity:	6000 MT/Annum
Plant and machinery cost:	322.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	40.00 %
Break Even Point (BEP):	63.00 %
TCI:	692.00 Lakh
Cost of Project:	692.00 Lakh

Aluminium, the second most plentiful metallic element on earth, became an economic competitor in engineering applications as recently as the end of the 19th century. It was to become a metal for its time. The emergence of three important industrial developments would, by demanding material characteristics consistent with the unique qualities of aluminium and its alloys, greatly benefit growth in the production and use of the new metal. The global aluminium industry has undergone remarkable changes in the recent past and the outlook for the metal is quite optimistic in the coming years, as the global demand is expected to grow by eight percent in the next few years. Though the rate of growth of the aluminium industry is relatively low in the developed countries, having already reached a peak, in developing countries of Asia like India and China, an accelerated growth can be expected. This provides very good scope for new investment.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry. NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
