Printed paper shopping bags are more popular and good in appearance. They are now going to replace the poly bags. There is lot of use of poly bags in modern life due to various positive reason. Shopping bags are made by using fibre impregnated kraft paper in the bag making machine by using special type paper adhesive or by using stitching machine. It is useful for carrying the grocery regular item. It can be used for carrying vegetables, fruits etc. It can be predicted that there is a demand of paper made shopping bags, but there is competition in both sides one in manufacturing with quality products other side vacancy created by the unecofriendly behavior of plastic base products. If there is development of eco-friendly plastic, that will again take the vacuum market. There is fair scope of the paper bags.
