Optical Whiteners

Capacity:	300 MT/Annum
Plant and machinery cost:	24.00 Lakh
Working Capital:	0.00 Lakh
Rate of return(ROR):	41.00 %
Break Even Point (BEP):	46.00 %
TCI:	92.00 Lakh
Cost of Project:	92.00 Lakh

Types of textiles fibres natural or synthetic, do not appear perfectly white but exhibit a yellow tinge because of the presence of certain coloured impurities. The textile industry being predominantly cotton oriented, the consumption of optical whiteness is preferentially for cellulose. However, there is an increase in the trend for the production of polyester and polyester blended fabrics. Therefore, the demand for a whitener for synthetics is also increasing. The demand for optical whiteness is increasing year after year. The number of items reversed for exclusive development in the small scale sector have been increased by addition of optical whitener agents for textile. There is good scope for setting up a new unit.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
