Synthetic detergents as an effective substitute to washing soaps have become increasingly popular in the country in the last 25 years. With more and more of awareness amongst all classes of society to maintain healthy ways of livings, this industry is to be manifold. Detergents are used for many purposes and there are wide ranges of uses. The main uses are textile fabrics, cooking utensils, crockery, sinks, drawing surfaces and baths, floors and walls etc. Demand is found to be increasing due to the increase in the population and increase in awareness for cleanliness in people in coming years. Almost 67% of total production of synthetic detergent are produced in small scale sector has a very big production of soap and 50% of total production in small sector. A new entrepreneur can well venture in this field by installing an unit of blue detergent powder to satisfy present and future demand of people.
