| <b>Cost of Project:</b>          | 209.00 Lakh |

Fish Meal is a dry & easily stored product forming a valuable ingredient of the rations of farm animals, particularly young pigs & poultry. Production of fish meal is basically from white fish offal, chiefly heads back bones. For the production in some factories, pelagic fish such as herrings, sardines & pilchards are used. It is only necessary to dry & grind white fish, offal to obtain a satisfactory meal, but oily fish or fish waste must be treated to remove most of the oil before drying & grinding.

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.
